

The Wolf and The Magic (John Patteron)

Once a year John Patterton would escape it all, work, the city, his life, everything. A tiny cabin in the middle of the Montana Rockies was the perfect, serene setting to forget about the world and relax. Everything changed when the wolf came. The Wolf and the Magic is the first novella in the John Patterton series. This is also the first series based in a world of Wizards Creations. Follow John as he begins to discover the dark creations of wizards and learns of the magic that lies under the surface of everyday life.
