

## Dhayanam

Dhayanam is the first book in a series of books, based on religious teachings and principles, re-modeled in the fantasy fiction genre. The book is about someones past life. The main character in the books travels back in time after an unnerving episode that was neither expected nor premeditated and following the unforeseen meeting begins to regress. Part of the regression is due to the sins that he had committed in his past life. Therefore in order to find the answers to the many questions he has, he returns to an existence almost a thousand years back in a fictitious land and starts retracing his footsteps from the time he was born.
